

# Richard Whittington

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Remote

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

**InTouch Daily Tasks (Fullstack Web App)** – A full stack web application using a fully integrated MongoDB database allowing the user to create new task lists on the go.

**Weather Where You Are (Fullstack Web App)** – Users can input their location and find the weather forecast for that, or any other area utilizing an API..

### Freelance Full Stack Web Developer | Memphis, TN

December 2014 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy.

### Social Media Marketing Specialist for Stratosphere NYC Agency | NYC

September 2013 — December 2014

Established a brand management strategy and communications campaign dedicated to increasing the reach of our clients. Also was responsible for content creation.

## VOLUNTEERING

### GiveCamp Memphis | Memphis, TN

February 2023 — Present

Collaborated with a team of technology professionals to improve the design and organization of the website of a local nonprofit allowing them to better serve their clients and to attract potential donors.
